

Jordan Lee

Werkstudent Frontend Engineer

c-we-usa-04@example.com · USA · candidate id C-WE-USA-04

EXPERIENCE

Werkstudent Frontend Engineer · Synth Corp 4

2020-01 – 2024-06

- Designed and shipped a Durable Functions pipeline ingesting 30k claims/day with sub-second p95 latency.
- Led migration from a snowflake-of-bash to a typed Python data layer; cut on-call pages by 70%.
- Owned the cost-attribution model that surfaced \$1.2M of annual savings on idle compute.

EDUCATION

BSc CS · Synthetic University · 2014

SKILLS

typescript	react	tailwind
